

SUNSHINE BIKE & SHOP

Service Center

Tune-up:

Check over and inspect cables and housing. Inspect both tires and inflate to proper pressure. Lube all brake and derailleur pivot points. Lube chain. Adjust derailleurs, brakes, headset, bottom bracket, and hubs. True wheels, torque crank arms and test ride. Please note: Items needing extensive tuning may involve additional charges.

Pro Tune-up:

Includes services provided with the basic tune-up plus a drivetrain clean. Drivetrain clean includes pulling off all drivetrain components, which includes the cassette, chain, derailleurs, crank, and bottom bracket. Each part is thoroughly cleaned in solvent and re-installed.

Complete Overhaul:

In addition to tune up, overhaul includes complete disassembly of bike and cleaning of all parts. Hubs, headset, and bottom bracket bearings are cleaned and repacked with fresh grease. Wheels are trued. Bike is reassembled, tuned, and test ridden. Also includes new cables and housing at no extra charge.

(Requires appointment)

Free Tune-up:

When you purchase a bike from us you are eligible to receive our basic tune-up at no charge! This service is offered to the original owner of the bicycle and can be used at any time.
